Date	2026-06-12	Referring MD	Dr. C. Rossi, CCFP

Reason for referral: 38M with left scrotal swelling and dull ache - query varicocele.

Dear Dr. Patel,

Mr. Ibrahim reports a 4-month history of left scrotal fullness and a dull dragging ache worse at the end of the day and with standing, relieved by lying down. On examination there is a 'bag-of-worms' consistency on the left, more prominent with Valsalva. Ultrasound confirms a varicocele. He and his partner have also had difficulty conceiving. I would appreciate your assessment. Ultrasound and semen analysis attached.
