CONSULTATION REFERRAL

Patient	MACPHERSON, Ian	DOB	1955-02-28 (70 M)
Health card	4380-112-559 IM	Phone	416-555-1520
Address	23 Yonge Blvd, Toronto ON M5M 3H1		
Referred to	Dr. A. Patel - Urology Associates of Ontario, 500 University Ave, Toronto ON		
Date	2026-06-16	Referring MD	Dr. B. Adeyemi, CCFP

Reason for referral: 70M with rising creatinine and bilateral hydronephrosis - please assess for obstructive uropathy.

Dear Dr. Patel,

Mr. MacPherson has worsening lower urinary tract symptoms and a rising creatinine (baseline 105, now 168 umol/L over 4 months). Renal ultrasound shows bilateral hydronephrosis with a markedly enlarged prostate and elevated post-void residual. PSA is elevated at 12. I am concerned about chronic bladder outlet obstruction with obstructive nephropathy and would appreciate urgent assessment. Labs and imaging attached.

PAST MEDICAL HISTORY

- Benign prostatic hyperplasia
- Hypertension
- Type 2 diabetes
- Atrial fibrillation

PAST SURGICAL HISTORY

- Right total knee replacement (2019)

ALLERGIES

- No known drug allergies

MEDICATIONS

- Tamsulosin 0.4 mg PO HS
- Finasteride 5 mg PO daily
- Apixaban 5 mg PO BID
- Metformin 850 mg PO BID
- Amlodipine 10 mg PO daily

SOCIAL HISTORY

Ex-smoker (quit 1998). Alcohol 2 drinks/week. Retired engineer. Lives with wife.

FAMILY HISTORY

Brother - prostate cancer.

EXAMINATION

Bladder palpable to umbilicus. DRE: markedly enlarged firm prostate ~80 g, no discrete nodule. Legs no edema.

Thank you for seeing this patient. Please do not hesitate to contact me with any questions. Relevant investigations are attached.

Kind regards,

Dr. B. Adeyemi, CCFP

Lakeshore Diagnostic Imaging

Diagnostic Imaging Report

Patient: MACPHERSON, Ian	DOB: 1955-02-28	Exam date: 2026-06-13
Exam: Renal & Bladder Ultrasound	Referring: Dr. B. Adeyemi, CCFP	Acc: 254981

CLINICAL HISTORY: Rising creatinine, LUTS.

FINDINGS: Bilateral moderate hydronephrosis with dilated ureters to the level of the bladder. Markedly enlarged prostate (~95 cc) with intravesical protrusion. Bladder wall trabeculated. Post-void residual 480 mL.

IMPRESSION: Bilateral hydronephrosis secondary to chronic bladder outlet obstruction from prostatic enlargement; obstructive nephropathy.
